

MPN: MC-POESPLITTER

PoE Splitter, 5V 2.4A

The MC-POESPLITTER PoE Splitter delivers reliable power and data connectivity to your non-PoE devices. Designed to split a Power over Ethernet (PoE) signal into separate power and data sources, this splitter outputs 5V at 2.4A, making it ideal for powering a wide range of devices such as IP cameras, wireless access points, and other network appliances. Benefit from simplified installations by eliminating the need for separate power supplies. MicroConnect's pioneering innovation ensures a cost-effective and efficient solution for extending your network's reach while adhering to the highest European quality standards. Trust in our 20+ years of expertise to provide seamless integration and dependable performance for all your networking needs.

Specifications

Design	LED indicators	Yes
	Product colour	Black
Package dimensions (verified)	Depth Verified	17,4 cm
	Gross Weight Verified	0,06 kg
	Height Verified	3,3 cm
	Width Verified	20 cm
Packaging content	Quantity	1
Performance	Cabling technology	10/100Base-T(X)
Ports & interfaces	Ethernet LAN (RJ-45) ports	1
Power	Input voltage	48 V
	Output current	2,4 A
	Output voltage	5 V
	Power over Ethernet (PoE)	Yes
Product dimensions	Net Weight (Product, kg)	0,05 kg
Vendor information	Brand Name	MicroConnect
	Warranty	5 Year(s)
