Take your business to a whole new level

With the X95K Professional BRAVIA series that unite exquisite pictures and sound in our finest 4K HDR professional display, and a premium flush design that keeps your audience focused on your message without distractions.

Optimised for professional applications, the X95K Professional BRAVIA series are powered by the ingenious Cognitive Processor XR that takes vision and sound to a whole new level by boosting colour, contrast, clarity and motion. The 4K mini LED screen with local dimming uncovers the subtlest shadow details, bringing you stunningly realistic high-contrast images that look great from any angle with less blur.

For even greater peace of mind there's the added reassurance of our 3 Years warranty with advanced exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.

Ultimate Picture Quality

4K image resolution (3840 x 2160 pixels)
4K offers four times the detail of Full HD, with a resolution of over 8 million pixels bringing extra clarity to corporate display, education and digital signage applications.

Absolute Contrast with the new Mini LED screens
The 4K Mini LED screen delivers exceptional contrast like never before, featuring deep blacks and dazzling lights, as well as beautifully natural mid tones.

Wider Colour with XR TRILUMINOS Pro™
Powered by our Cognitive Processor XR, the X95K series reproduce colour in a way that humans find beautiful. See a wider palette of colours with an enhanced range of hue and saturation, allowing natural shades and precise details to be seen, even in dark scenes.

Beautifully Realistic 4K HDR Images
Our revolutionary cognitive Processor XR HDR remaster, 4K XR Super Resolution, XR Contrast booster and more, making you appreciate the difference with enhanced depth, more realistic textures, and pure, natural colours at higher brightness levels.

Clearer, Brighter Fast-moving Scenes
Our latest LED XR Motion Clarity™ technology keeps everything smooth, bright, and clear. Each 'blink' is individually controlled, and its duration optimised, while brightness is boosted when needed, so you don't miss a thing.

See Finer Details
XR 4K Upscaling takes 2K pictures closer to true 4K quality. Images are sharpened and refined in real time, revealing extra detail from lower-resolution picture sources.

Flush Surface, No Distractions
BRAVIA Professional Displays feature a slim, flush design with discrete stand and thin bezel that keeps you focused on what's important - the picture.

Features

Do more with Google TV
Discover a world of apps and online content powered by Google TV. Use Voice Search to find content easily without typing. Easily share content with Google Cast.

Google Chromecast and Apple Airplay
With Google Chromecast built-in, and Apple Airplay, easily mirror your content and enjoy it super-sized on your BRAVIA.

Flexible Mounting and Installation
BRAVIA Professional Displays offer flexible mounting options with VESA standard mounting for easy integration into a wide range of environments.

Greater peace of mind
There's the added reassurance of our 3 Years warranty with advanced exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.
